

OMAR ABU QAHF

Nasr City, Cairo, Egypt

+20 112-007-7102 omaresmail04@gmail.com Omar Abu Qahf

PROFILE

“Results-driven Mechanical R&D Engineer with experience in product development, mechanical design, and manufacturing within the home appliance industry. Expertise in plastic injection-molded and sheet metal design, DFM, supplier collaboration, design validation, GD&T, and manufacturing process improvement. Strong background in product architecture, subsystem definition, EBOM and Production BOM management, data analysis, cost optimization, and SAP-based engineering processes. Skilled in leading projects from concept to production, delivering high-quality and cost-effective solutions through cross-functional collaboration and continuous improvement.”

WORK EXPERIENCE

El Araby Group

Sep. 2024 – Present

Product Development Engineer

Benha, Egypt

- Lead the design and development of home appliance components and assemblies using CATIA and the 3DEXPERIENCE platform.
- Create, refine, and validate plastic injection-molded and sheet metal parts while
- Develop product architectures, define subsystem structures, and manage Engineering BOM (EBOM) throughout the product lifecycle.
- Build and evaluate prototypes, conduct testing activities, analyze performance data, and implement design improvements to enhance product quality and reliability.
- Select suitable materials and manufacturing processes to achieve optimal performance, cost, and manufacturability.
- Collaborate with R&D, production, quality, procurement, and supplier teams to ensure successful product industrialization and seamless integration.
- Prepare engineering documentation, technical reports, drawings, specifications, and BOMs while ensuring compliance with company and international standards.
- Conduct design reviews, GD&T application, tolerance analysis, DFMEA, and root cause investigations to resolve technical challenges and drive continuous improvement.
- Support supplier development, cost optimization initiatives, engineering change management, and product localization projects.
- Utilize SAP, Excel, VBA, and data analysis techniques to improve engineering workflows, product data management, and decision-making processes.

LEONI GmBH

Apr. 2024 – Sep. 2024

Supply Chain Governance and Controlling Trainee

Cairo, Egypt

- Supported supply chain governance and controlling activities through the analysis and monitoring of operational and supply chain performance data.
- Prepared and maintained KPI reports, dashboards, and management presentations to support data-driven decision-making.
- Analyzed supply chain processes, inventory, procurement, and logistics data to identify trends, risks, and improvement opportunities.
- Assisted in cost analysis, budget tracking, and performance controlling activities to enhance operational efficiency.
- Collaborated with cross-functional teams including procurement, logistics, production, and finance to ensure alignment with business objectives.
- Contributed to process standardization, governance compliance, and continuous improvement initiatives across supply chain operations.
- Performed data validation, reporting automation, and root cause analysis using Excel and analytical tools to improve reporting accuracy and efficiency.
- Supported management in monitoring supply chain performance, identifying deviations, and implementing corrective actions.

EDUCATION

Ain Shams University

Bachelor of Science in Design and Production Engineering (Very Good)

Sep. 2017 – Jun. 2022

Cairo, Egypt

CORE SKILLS

Technical Design & Development: Product Development, Mechanical Design, Plastic Injection-Molded Part Design, Sheet Metal Part Design, Design for Manufacturing (DFM), GD&T (Geometric Dimensioning & Tolerancing), Design Validation, Material Selection, DFMEA, Tolerance Analysis.

Manufacturing & Product Engineering: Manufacturing Processes, Engineering Change Management (ECN/ECR), Cost Optimization, Product Architecture Development, Subsystem Definition, Root Cause Analysis.

CAD, PLM & Engineering Tools: CATIA , SOLIDWORKS, 3DEXPERIENCE Platform, Product Lifecycle Management (PLM), CAD Modeling & Assembly Design, Engineering Drawings & Documentation.

BOM & Data Management: Engineering BOM (EBOM), BOM Creation & Structuring, BOM Analysis & Comparison, Product Data Management (PDM), SAP Engineering Processes, Data Analysis, Engineering Documentation, Microsoft Excel, VBA Automation, Visual Paradigm, My SQL, Orange Data Mining.

Languages : Arabic [Native], English [Advanced], German [B2], French [A2].

INTERNSHIPS & PROJECTS

Bticino and Legrand Factory

Graduation Project Team Leader

Nov. 2021 – Aug. 2022

El Sadat City, Egypt

Ain Shams University Press

Project Team Leader

Nov. 2021

Cairo, Egypt

Fresh Air Conditioner Factory

Project Team Leader

Nov. 2021

10th Ramadan City, Egypt

Arab Organization for Industrialization

Production Engineer Intern

Sep. 2021 – Oct. 2021

Cairo, Egypt

ISWT Contest (International Small Wind Turbine)

Participant

Aug. 2020

TU Delft, Netherlands

MCV Group

Service Engineer Intern

Jul. 2019 – Aug. 2019

El Obour City, Egypt

EXTRACURRICULAR ACTIVITIES

Community Teaching Assistant

MIT Center for Transportation and Logistics

Jun 2024 – May 2025

Scout Leader

El-Salam Scouts Group

May 2018 – Present

Rehab SC, New Cairo, Egypt

Scout Leader

ASU Rovers Club

Sep. 2018 – Jun. 2022

ASU, Cairo, Egypt

World Scout Environment Programme

Volunteer

Jan. 2019
